Biomembranes

Vol. 1147, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Release of protein 4.1-rich vesicles from diamide-treated erythrocytes under hydrostatic pressure
T. Yamaguchi, T. Saeki and E. Kimoto (Japan) 1

Localization of Cys-344 on the (Ca^{2+}-Mg^{2+})-ATPase of sarcoplasmic reticulum using resonance energy transfer
A.M. Mata, H.I. Stefanova, M.G. Gore, Y.M. Khan, J.M. East and A.G. Lee (UK) 6

Purification and functional reconstitution of the 2-oxoglutarate/malate translocator from spinach chloroplasts
E. Menzlaff and U.-I. Flügge (Germany) 13

Acylphosphatase induced modifications in the functional properties of erythrocyte membrane sodium pump
P. Nassi, E. Marchetti, C. Nediani, G. Liguri and G. Ramponi (Italy) 19

Low concentrations of sodium fluoride inhibit Ca^{2+} influx induced by receptor-mediated platelet activation
Y. Ozaki, K. Satoh, Y. Yatomi and S. Kume (Japan) 27

Effect of the biochemical state of the Ca-ATPase protein of scallop sarcoplasmic reticulum on its interaction with *trans*-parinaric acid
V.N. Kalabokis and P.M.D. Hardwicke (USA) 35

Antimicrobial specificity and hemolytic activity of cyclized basic amphiphilic β-structural model peptides and their interactions with phospholipid bilayers
S. Ando, H. Nishikawa, H. Takiguchi, S. Lee and G. Sugihara (Japan) 42

Self-assembling properties of synthetic peptidic lipids
T. Shimizu and M. Hato (Japan) 50

Magnetically induced orientation of phosphatidylcholine membranes
X. Qiu, P.A. Mirau and C. Pidgeon (USA) 59

Plasma dependent pH sensitivity of liposomes containing sulfatide
P. Viani, G. Cervato, P. Gatti and B. Cestaro (Italy) 73

Release of lipid vesicle contents by the bacterial protein toxin α-haemolysin
H. Ostolaza, B. Bartolomé, I. Ortiz de Zárate, F. De la Cruz and F.M. Goñi (Spain) 81

Tension-stabilized pores in giant vesicles: determination of pore size and pore line tension
D.V. Zhelev and D. Needham (USA) 89

Regulation of inositol 1,4,5-trisphosphate receptors in rat basophilic leukemia cells. I. Multiple conformational states of the receptor in a microsomal preparation
F.C. Mohr, P.E.C. Hershey, I. Zimányi and I.N. Pessah (USA) 105

Regulation of inositol 1,4,5-trisphosphate receptors in rat basophilic leukemia cells. II. Modulation of the receptor in permeabilized cells by the cytosolic compartment
P.E.C. Hershey, I.N. Pessah and F.C. Mohr (USA) 115

Monitoring of unbound protein in vesicle suspensions with off-null ellipsometry
P.L.A. Giesen, G.M. Willems, H.C. Hemker, M.C.A. Stuart and W.T. Hermens (Netherlands) 125

Bactericidal catechins damage the lipid bilayer
H. Ikigai, T. Nakae, Y. Hara and T. Shimamura (Japan) 132

Effect of fenvalerate, a pyrethroid insecticide on membrane fluidity
S.N. Sarkar, S.V. Balasubramanian and S.K. Sikdar (India) 137

The effect of general anesthetics on the dynamics of phosphatidylcholine-acetylcholine receptor interactions in reconstituted vesicles
V.C. Abadji, D.E. Raines, A. Watts and K.W. Miller (USA, UK) 143

A microscopic model for lipid/protein bilayers with critical mixing
Z. Zhang, M.M. Sperotto, M.J. Zuckermann and O.G. Mouritsen (Canada, Denmark) 154

Rapid Reports

Use of irreversible electrical breakdown of lipid bilayers for the study of interaction of membranes with surface active molecules
K.-H. Klotz, M. Winterhalter and R. Benz (Germany) 161

The voltage-gated non-selective cation channel from human red cells is sensitive to acetylcholine
P. Bennekou (Denmark) 165

Regular Papers

Effect of oxidant exposure on monkey intestinal brush-border membrane
S. Nalini, S.A. Ibrahim and K.A. Balasubramanian (India) 169

Annexin I interactions with human neutrophil specific granules: fusogenicity and coaggregation with plasma membrane vesicles
P. Meers, T. Mealy and A.I. Tauber (USA) 177

Coupling of ligands to liposomes independently of solute entrapment: observations on the formed vesicles
G. Gregoriadis, N. Garcon, H. Da Silva and B. Sternberg (UK, Belgium, Germany) 185

Function of intracellular $[Ca^{2+}]_i$ in exocytosis and transbilayer movement in human platelets surface-labeled with the fluorescent probe 1-(4-(trimethylammonio)phenyl)-6-phenyl-1,3,5-hexatriene
J.W.M. Heemskerk, M.A.H. Feijge, H.A.M. Andree and S.O. Sage (The Netherlands, UK) 194

Uptake and transport of fluorescent derivatives of dolichol in human fibroblasts
L.W. Jiang, B.A. Mitchell, J.G. Teodoro and J.W. Rip (Canada) 205

Na^+-dependent and -independent uridine uptake in an established renal epithelial cell line, OK, from the opossum kidney
A.J. Doherty and S.M. Jarvis (UK) 214

Human immunodeficiency virus type 1 (HIV-1) fusion with model membranes: kinetic analysis and the role of lipid composition, pH and divalent cations
C.E. Larsen, S. Nir, D.R. Alford, M. Jennings, K.-D. Lee and N. Düzgüneş (USA, Israel) 223

The effect of positive and negative pH-gradients on the stability of small unilamellar vesicles of negatively charged phospholipids
B.Z. Lin, C.C. Yin and H. Hauser (Switzerland) 237

Membrane heterogeneity in isolated rat hepatocytes and liver plasma membrane subfractions: a comparative study using DPH and its cationic derivative TMA-DPH
G. Ferretti, G. Zolese, G. Curatola, A.M. Jezequel and A. Benedetti (Italy) 245

Targeting and delivery of bactericide to adsorbed oral bacteria by use of proteoliposomes
M.N. Jones, S.E. Francis, F.J. Hutchinson, P.S. Handley and I.G. Lyle (UK) 251

Membrane potential determination in large unilamellar vesicles with hexakis(2-methoxyisobutylisonitrile)technetium(I)
D.M. Chernoff, G.R. Strichartz and D. Piwnica-Worms (USA) 262

Baclofen (β-*p*-chlorophenyl-γ-aminobutyric acid) transport across rat jejunum
A. Polache, L.K. Munck and B.G. Munck (Denmark) 267

Rapid Reports

Mesophase formation by ceramides and cholesterol: a model for stratum corneum lipid packing?
D.T. Parrott and J.E. Turner (UK) 273

Spin label saturation transfer EPR determinations of the stoichiometry and selectivity of lipid–protein interactions in the gel phase
L.I. Horváth, P.J. Brophy and D. Marsh (Germany, UK) 277

Cumulative Contents, Vol. 1147 281
